The data in this publication are voluntarily supplied by ERA reporting airports. The Directorate's thanks go to these airports. To ensure true comparisons year on year, these statistics are based on figures provided by the same group of airports for each of the periods being compared. On occasions it may be necessary to alter some graphs from previous issues retrospectively when additional airports enter the system. Rounding the data may cause some distortion to graphs. Interpretation of graphs and charts is undertaken by the ERA Directorate staff and does not necessarily reflect the views of individual members. The ERA Directorate does not take responsibility for any conclusions that may be drawn from the processing, analysis and interpretation of the tables and charts after Airport Statistics has been downloaded. The source must be acknowledged in reproduction of any part of the document.
