ERA AIRPORT STATISTICS

Welcome to Airport Statistics. This issue features the results for the ERA reporting airports for January 2005.

The charts and tables in this issue are comprised of data from 12 airport members who are members of the airport reporting scheme.

If you would like more information or have any comments on Airport Performance or if your airport wishes to submit data please contact Lorna Casals at the ERA Directorate (lorna.casals@eraa.org).

The data in this publication are voluntarily supplied by ERA reporting airports. The Directorate's thanks go to these airports. To ensure true comparisons year on year, these statistics are based on figures provided by the same group of airports for each of the periods being compared. Providers who have not been able to supply data for the preceding year are only included in the Airport Performance table on page 1. All other charts use comparative data. On occasions it may be necessary to alter some graphs from previous issues retrospectively when additional airports enter the system. Rounding the data may cause some distortion to graphs. Interpretation of graphs and charts is undertaken by the ERA Directorate staff and does not necessarily reflect the views of individual members. The source must be acknowledged in reproduction of any part of the document.
